

We are all gifted at something although we don't always recognize it. Our God given talent that we may have honed to a real skill is our gift. What is yours?

Are you creative, artistic, musical?

Do you make wonders happen in your kitchen or your garden?

Can you craft with your hands or create with your imagination?

Maybe your talent lies with people, with communication, compassion, or empathy?

Perhaps your area of expertise is in organization and planning?

Maybe you connect well with children or youth?

Everyone has talent in one arena or another and whatever yours is and wherever it lies, there is almost certainly a place and a need for it in our community. We would love it if all the members of our church family would contemplate their talents and consider how they might make a gift of their God-given gift to the continuing conservation and development of our St John's community.

There are roughly 740 hours in a month. If you were able to donate say, two of yours, to helping us all grow and nurture our community that would be amazing. The stewardship committee would like our church family to meditate and pray around this, and then let us know.

We have a place and a need here for your superpower even if you don't know it yet!

Name _____

My superpower _____

I have _____ hours per month to offer
